

Without You

Scott Grimes

I've been down and feeling lonely
Cuz I just think of you all day
And when I heard you weren't comin' home to me
I just wanna die, wanna run away
So I went to the doctor to find
If everything was doing alright
I went to the doctor to say
Can say give me something please to make this go away?
Cuz without you
I can't go on
Without love
Will I be strong?
Without you
I don't wanna live at all
Without you I can't go on
Without you
Since you've been gone things are going so wrong
I just sit around all day
And now I know you're never coming home to me
I just wanna die, wanna run away
