

# Easy Come Easy Go

Gin Wigmore

Ive watched you come  
and Ive watched you go  
A life so beautiful  
Doused in the petals of the rose  
Touched by the son of all gold  
Inside the fire of a number 8 ball  
To see if the penny will fall onEasy come  
Easy go  
Is what Im playing for  
If I lose  
Easy come  
Easy go  
Will get me throughIf I had one more day  
Of all days Id ask again  
Would you wait would you hold one for me  
When the weight on my shoulders is dragging me under  
of my way just to say  
that I've saved one for you  
When my timing is numbered  
Count all the days till yesterday  
as we have today, for just you and me  
would you wait, would you wait here for meHave you ever looked under the night  
Pretending that you can fly  
A million miles in just one hour  
A find of a childhood time  
No regrets  
No last goodbyes  
We have all had our time to shineEasy come  
Easy go  
Is what Im playing for  
If I lose  
Easy come  
Easy go  
Will get me throughIf I had one more day  
Of all days Id ask again  
Would you wait would you hold one for me  
When the weight on my shoulders is dragging me under  
of my way just to say  
that I've saved one for you

When my timing is numbered  
Count all the days till yesterday  
as we have today, for just you and me  
would you wait, would you wait here for meWould you wait  
Would you wait  
Like a man waits for his wife  
Would you wait  
Would you wait  
Like the sea  
Waits for a tide  
Would you wait  
Would you wait for me
