

I Drink Your Milkshake

[Eugene McGuinness](#)

Cherry blossom on your Chelsea boots
Cheap wet-look hair gel and a dogtooth suit
And the Ray Bans are out, out the temp fait
It's always raining down, raining round your way I played the part, I played the lead
I am the first and the last of a dying breed
And I'll suck the cut, if you bite
Just to fuck you up, if you like I drink your milkshake
I drink your milkshake Charge me up and I'll never go flat
Fire the thrusters, gone in a flash
Intruder alert, a breach of security
The heat won't hurt if you just let it be I drink your milkshake
I drink your milkshake
I drink your milkshake
I drink your milkshake All the flavours
All the flavours at the store
She's had all the flavours
Have one more I drink your milkshake
I drink your milkshake
