Sunshine

Coko

Sunshine, sunshine
You brighten up my days, I'll love you always
Sunshine, sunshine
Never go away, stay right here with meBaby, when you're around me you just can't do no wrong
Every way is the right way 'cause your love is so strong
And whenever I need you, you're always right there
To let me know you love me and how much you careSunshine, sunshine
You brighten up my days, I'll love you always
Sunshine, sunshine
Never go away, stay right here with meAt first it seemed so hard for me to find
Finally that day came and my whole life changed
So beautiful true love has made my life
Brung me happy days, chased my clouds awayI believe the day you came my cloudy days swept away
Goodbye to lonely days
And I know without you in my life is filled with rain
So stay right here with me, oh yeahSunshine, sunshine
You brighten up my days, I'll love you always
Sunshine, sunshine
Never go away, stay right here with meSunshine, sunshine
You brighten up my days, I'll love you always
Sunshine, sunshine
Never go away, stay right here with meI believe the day you came my cloudy days swept away
Goodbye to lonely days
And I know without you in my life is filled with rain
So stay right here with meSunshine, sunshine
You brighten up my days, I'll love you always
Sunshine, sunshine
Never go away, stay right here with meSunshine, sunshine
You brighten up my days, I'll love you always
Sunshine, sunshine
Never go away, stay right here with meSunshine, sunshine, sunshine
I'll love you always
Sunshine, sunshine
Never go away,
