TANTRA

Goodbye Chanel

Here upon the dimmer switch
To rough from delicate
Our one and only secret is
We scratch it cause we can
You make it fast or slow
In way only you can
You drive your car
With masterful experience
[Chorus]You?re my heart
One woman man
You?re fading your control
Inside your dominion
And here I watch you wield
Your passion with command
And shatter them all
Into our secret tantra,
Our tantric of love
Walls around our future
With moth along my back
Safety in this rapture
The most freedom I?ve had
And you unlock me love
In ways only you can
You keep me moving 'tween
Power and submission
[Chorus]You?re my heart

One woman man
You?re fading your control
Inside your dominion
And here I watch you wield
Your passion with command
And shatter them all
Into our secret tantra
Our tantric of love
Exploring this our enticing portal
Delivering us into new heights
Beyond my fantasies straight into possible
The closest we've come to this you and i

We've been on a roll since
Your breath first graced my skin
This violent force stood on me
It keeps warm within
We keep progressing
As you offer full spectrum
And we?ll keep deepening until our days are done
[Chorus]You?re my heart
One woman man
You?re fading your control
Inside your dominion
And here I watch you wield
Your passion with command
And shatter them all
Into our secret tantra
Our tantric of love
