

# We Can Fly

## Lachi

She's a funny girl  
She makes everybody around her laugh  
She brightens up there world  
But they don't see that she's no smiling back  
Jack

She's like a magazine  
She keeps everyone entertained  
But once they've had their read  
They don't mind throwing the thing away  
Because they've had their play

And it's hard to tell that she's sad

She's a funny girl  
She says what everyone wants to hear  
But when she's the one crying out  
She sees that everyone disappears  
Because they're so sincere

And it's hard to tell that she's sad

When you're down and alone  
And you need a friend to dry your eyes  
Won't you call her on the phone  
But when she says jump you should say how high

She's a funny girl  
She's a funny girl  
Ha ha

And it's hard to tell that she's sad  
Ha ha
