The Sacrifice

Dolly Parton

Well I've sacrificed time with family and friends, gave up vacations for work without end, 24/7/365 but I was willing to make the sacrifice but empty or full, I've carried my pail, you don't drink the water if you don't dig the well, through blood, sweat and tears I have built a good life but it didn't come without sacrifice

And I was gonna be rich no matter how much it cost, and I was gonna win no matter how much I lost all through the years I've kept my eye on the prize, you ask if it's worth the sacrifice, the sacrifice.
