

Hackers (feat. Armanni Reign)

Barely Alive

They say you're barely alive
But until dodging that light save
Till the day I open my eyes
I salute to life that fight says

What you need match is what you breach
And stop for nothing it's the only way
By the way my name's Mr. Reign
So you already know what I'm gonna say

(Peach? Yeah!)
We like to turn up!
Shoot twist away to hit twist and burn up!
We live like tonight there's no tomorrow
We give back respect like it's something you borrow

Crue to the room like way world about it
With the angels say word and act crowd about it
Step the game up to keep the lanes up
Cause the way I play with us today

Oh my god, I'm about to lose my mind in here
Can't hold back cause y'all know how we grind in here
Two turns, we pass row, we live for this (like), live for this (like),
Live for this (like), live for this (like)..

LET'S FIGHT!

Rise your hands so you can leave answer to question we stop no more
Speakers booming all around the room until you feel you're moving in slow mo
No connection, this is no protection, while the beats are making that cook row
How did the others not know? (Bruh!)
You'll never use this show (No!)

Oh my god, I'm about to lose my mind in here
Can't hold back cause y'all know how we grind in here
Two turns, we pass row, we live for this (like), live for this (like),
Live for this (like), live for this (like)..

WE ARE BARELY ALIVE!
