

# Whenever You're Near Me

## Ace of Base

Whenever you're near me  
I give you everything I have  
Someone to believe in  
When things are good and when they're bad You know how to please me  
Ooh, like nobody can  
Someone to believe in  
Be my lover, be my friend When every race is run and the day is closing in  
I feel the need to hold you, let the night begin  
Come softly to me, show me why Whenever you're near me  
I give you everything I have  
Someone to believe in  
When things are good and when they're bad You know how to please me  
Ooh, like nobody can  
Someone to believe in  
Be my lover, be my friend I cannot wait to feel the beating of your heart  
The days are long and they're just keeping us apart  
Come softly to me, show me why Whenever you're near me  
I give you everything I have  
Someone to believe in  
When things are good and when they're bad You know how to please me  
Ooh, like nobody can  
Someone to believe in  
Be my lover, be my friend Whenever you're near me Love is the reason, we can feel this way inside  
Oh oh, turning the world around and making us wild  
Love is the music beating in our hearts tonight  
Oh oh, lighting the way to take us deeper inside Whenever you're, whenever you're near me  
I give you everything I have  
Someone to believe in  
When things are good and when they're bad You know how to please me  
Ooh, like nobody can  
Someone to believe in  
Be my lover, be my friend Whenever you're near me  
Someone to believe in  
When things are good and when they're bad You know how to please me  
Someone to believe in  
Be my lover, be my friend  
Whenever you're near me
