Whenever You're Near Me

Ace of Base

Whenever you're near me

I give you everything I have

Someone to believe in

When things are good and when they're badYou know how to please me

Ooh, like nobody can

Someone to believe in

Be my lover, be my friendWhen every race is run and the day is closing in

I feel the need to hold you, let the night begin

Come softly to me, show me whyWhenever you're near me

I give you everything I have

Someone to believe in

When things are good and when they're badYou know how to please me

Ooh, like nobody can

Someone to believe in

Be my lover, be my friendI cannot wait to feel the beating of your heart

The days are long and they're just keeping us apart

Come softly to me, show me whyWhenever you're near me

I give you everything I have

Someone to believe in

When things are good and when they're badYou know how to please me

Ooh, like nobody can

Someone to believe in

Be my lover, be my friendWhenever you're near meLove is the reason, we can feel this way inside Oh oh, turning the world around and making us wild

Love is the music beating in our hearts tonight

Oh oh, lighting the way to take us deeper insideWhenever you're, whenever you're near me

I give you everything I have

Someone to believe in

When things are good and when they're badYou know how to please me

Ooh, like nobody can

Someone to believe in

Be my lover, be my friendWhenever you're near me

Someone to believe in

When things are good and when they're badYou know how to please me

Someone to believe in

Be my lover, be my friend

Whenever you're near me
