Shine On

Freedom Call

A child was born forever young
Alone in the virgin's hands
A son for mankind's innocence
Raised in a holy land aloneA star shined on a thousand nights
Diamond in the sky
Freedom for us allHigh up in the sky, guide our path through life
Save us from despair
Blazing rays of light, feel so warm inside
Take us to this holy land
Until the day comes, we return to innocence againPass through gates of time, be a guiding light
Savior of our souls
Keep us all alive, eyes are open wide
Stare into your crystal ball
The time has come for us, return to innocenceForever again, forever
Whenever again, wheneverShine on, starlight
Savior comes from somewhere
Ride on, guardian
Take us back where eagles dareFly into our fantasy
Take us to eternity
We'll never cry, we'll never die
Return to innocenceForever again, forever
Whenever again, wheneverShine on, starlight
Savior comes from somewhere
Ride on, guardian
Take us back where eagles dareShine on, starlight
Savior comes from everywhere
Ride on, guardian
Take us back where eagles dare, tonightA child was born forever young, fly
Bring us back the wayward son, cry
Freedom for us allShine on, starlight
Savior comes from somewhere
Ride on, guardians
Take us back where eagles dare
