By Your Side

Malina

And I'll be by your side forever and ever
Every day, every night, all my life with youI'd be saving all my love if you just wanted me to
And I'd give it to you, don't you tear it apart
You can lay down on me anytime you think that you need
I'd be ready to feed all the hunger in your heartSo come into my life the door is open, you see
'Cause you can count on me, can I count on you?
Come along and give me all the things I can't do without
Show me what love is about if you want it tooAnd I'll be by your side forever and ever
Every day, every night, all my life with you
I'll be by your side forever and ever
Every day, every night, all my life with youYou can take your time to think about this really good deal
'Cause I can make you feel like a prince or a king
But you gotta do the same and treat me like a princess
Don't you fake or finesse, I deserve my diamond ringSo come into my door, my heart is open, you see
And I'm ready to be always by your side
Come along and be the one that I kiss when I wake up
No, I won't give you up, no noAnd I'll be by your side forever and ever
Every day, every night, all my life with you
I'll be by your side forever and ever
Every day, every night, all my life with youOh yeah, I'll be by your side forever and ever
Every day, every night, all my life with youAnd I swear I'm gonna be so fine
You're not gonna waste your time
So daddy won't you say you'll be
Mine, mine, mine, mine, mine?
Baby, I can make you shineSo come into my life the door is open, you see
'Cause you can count on me, can I count on you?
Come along and give me all the things I can't do without
Show me what love is about, yeahI'll be by your side forever and ever
Every day, every night, all my life with you
I'll be by your side forever and ever
Every day, every night, all my life with youOh yeah, I'll be by your side forever and ever
Every day, every night, all my life with you
I'll be by your side forever and ever
Every day, every night, all my life with you
Every night, all my life with you
