Ride

Cary Brothers

You are everything I wanted
The scars, all I'll ever knowIf I told you you were right
Would you take my hand tonight?
If I told you reasons why
Would you leave your life and ride?
And rideYou saw all my pieces broken
This darkness that I could never showIf I told you you were right
Would you take my hand tonight?
If I told you the reasons why
Would you leave your life and ride?
And ride and ride and rideIf I told you you were right
Would you take my hand tonight?
If I told you the reasons why
Would you teave your life and ride?
And ride and ride and ride and ride?
And ride and ride and ride and ride?
