

Moonlight

[Ariana Grande](#)

The sun is setting in your eye, here by my side
And the movie is playing, but we won't be watching tonight
Every look (every look)
Every touch (every touch)
Makes me wanna give you my heart
I be crushin' on you, baby
Stay right where you are 'cause I never knew
I never knew you could hold moonlight in your hands
Till the night I held you, you
In the moonlight, moonlight I kiss his fingertips
Have a wish that he's all mine
He's giving me Elvis with some James Dean in his eyes
Puts his lips on my neck
Makes me wanna give up my body
I've been fallin' for you baby
And I can't just stop, 'cause I never knew
I never knew you could hold moonlight in your hands
Till the night I held you, you
In the moonlight, moonlight
Baby, I've been fallin'
You're my moonlight. moonlight
