All The Way Around

Ali Lohan

Ooh yeah
I should?ve known it was you all along
I didn't know what I had till it was gone
Now I?m falling down, falling down, falling down
And the trouble with the truth that you face
Is you're haunted by all of your mistakes
Now I?m calling out, calling out
But you can't be found, can't be found
Those nights, those days
Will not be replaced
Why'd I throw them away?
I had to go all the way around
I had to go all the way around
Just to figure out how to get back where I started from
I had to search higher and low
I had to search everywhere to know
That everything I wanted was what I had
(Had to go)
All the way around just to get back where I started from
All the way 'round, all the way 'round
All the way 'round
Just to get back where I started from
Just to get back where I started from
Would you listen to a heart that has learned?
Could you give another chance to this girl?
I?m so sorry now, sorry now, sorry now
Can't believe that it might be too late
I seen my future when I?m staring at your face
I?m not letting go 'cause we belong
I was a fool baby, I was wrong
And these arms they ache
And this soul is in pain
?Cause I threw the best thing I ever had away
I had to go all the way around
I had to go all the way around
Just to figure out how to get back where I started from
I had to search higher and low
I had to search everywhere to know
That everything I wanted I was what I had

(Had to go)
All the way around just to get back where I started from
All the way 'round, all the way 'round
All the way 'round
Just to get back where I started from
Just to get back where I started from
All the way 'round, all the way 'round
All the way 'round
Just to get back where I started from
All the way around, all the way around
All the way around and ?round and ?round
Oh and these arms they ache
And this soul is in pain
?Cause I threw the best thing I ever had away!
I had to go all the way around
I had to go all the way around
Just to figure out how to get back where I started from
I had to search higher and low
I had to search everywhere to know
That everything I wanted was what I had
(Had to go)
All the way around just to get back where I started from
All the way 'round, all the way 'round
All the way 'round
Just to get back where I started from
Just to get back where I started from
All the way 'round, all the way 'round
All the way 'round
Just to get back where I started from
All the way 'round, all the way 'round
All the way 'round
Just to get back where I started from
