

Fourteen Fifty-Nine

Face to Face

You look like such a mess
You better shut your gaping mouth
A little bit less than ordinary
We're full of loathing and self-doubt I'd like to get behind you once
To get a glimpse of that intoxicating light
And shove you all the way in it
I bet you'd hardly fight Fourteen fifty-nine
It shouldn't be too long before you die
Fourteen fifty-nine
I hope it won't be long until you die This is a hate song
Will you please shut your gaping mouth?
But don't leave us out of the conversation
Yeah I know what you're all about I'd like to get behind you once
To get a glimpse of that intoxicating light
And shove you all the way in it
I bet you'd hardly fight Fourteen fifty-nine
It shouldn't be too long before you die
Fourteen fifty-nine
I hope it won't be long until you die
