

Love Is All Around

DJ Bobo

Love is all around
Love is all around
Love is all around
Love is all around Everywhere you look
Love is all around
See it in the eyes
Of a mother and her child See it in the eyes of a friend
Love is all around
Love is all around
Love is all around My heart starts boom
My arms feel weak
My head is exploding
Everyday of the week I can't eat, I can't sleep
'Cause your body's so sweet
Put your hand to my heart
Then you feel the beat You're the wonderful girl
With that sexual healing
When I hold your hand
Then I get this feeling You're the only one
Feel so proud
Sweet, sweet girl
Your love is all around I'm dancing
And I feel like flying
Then I see this girl
She is crying I take her in my arms
It's like a dream
The most beautiful girl
In the world I've seen Look up to me
I see it in your eyes
The moment of truth
No more lies, it's love Love at the first sight
Like heaven on earth
It's shining bright
