Love Is All Around

DJ Bobo

Love is all around

Love is all around

Love is all around

Love is all aroundEverywhere you look

Love is all around

See it in the eyes

Of a mother and her childSee it in the eyes of a friend

Love is all around

Love is all around

Love is all aroundMy heart starts boom

My arms feel weak

My head is exploding

Everyday of the weekI can't eat, I can't sleep

'Cause your body's so sweet

Put your hand to my heart

Then you feel the beatYou're the wonderful girl

With that sexual healing

When I hold your hand

Then I get this feeling You're the only one

Feel so proud

Sweet, sweet girl

Your love is all aroundI'm dancing

And I feel like flying

Then I see this girl

She is cryingI take her in my arms

It's like a dream

The most beautiful girl

In the world I've seenLook up to me

I see it in your eyes

The moment of truth

No more lies, it's loveLove at the first sight

Like heaven on earth

It's shining bright
