

# Running All Night (with The Lion)

## Uriah Heep

I've been waiting for my lady  
One hour, she finally came  
She came walking by my table  
And I'm thinking, what's this fox's game  
To be honest, I was ready  
To play that white witch's game  
And I knew that she was ready  
To cut loose on the town and meet  
Somebody new for a change  
When you're running all night with the lion  
Running all night with the lion  
Running all night with the lion  
Running all night with the lion  
I may not recall exactly  
How I got her to sit down  
She was sitting at my table  
And I'm making out like a clown  
Oh, she'll make me very happy  
When she showed her fallen again  
And I knew that she was ready  
To cut loose on the town and meet  
Somebody new for a change  
When you're running all night with the lion  
Running all night with the lion  
Running all night with the lion  
Running all night with the lion  
Rock 'n' rollin' ladies  
Good life to the games you can't win  
We'll drink right at my table  
And we'll talk till it's time to go in  
This could be something heavy  
If only you'd show me a sign  
And something says you're ready  
To cut loose on the town and meet  
Somebody new for a change  
When you're running all night with the lion  
Running all night with the lion  
Running all night with the lion  
Running all night with the lion

Running all night with the lion  
Running all night with the lion  
Running all night with the lion  
Running all night with the lion  
Running all night with the lion  
Running all night with the lion  
Running all night with the lion  
Running all night with the lion  
Running all night with the lion  
Running all night with the lion
