

Just Wanna Love You Girl

Epsilons

I talked to Sally the other day,
Said that she's okay and everything's alright
How are you, are you okay?
Yeah, is everything alright?

Just wanna love you girl
Just wanna love you girl
Just wanna love you girl
Nobody else, oh, but you

How are you, how's your new boyfriend you got?
It's cool, do you wear his sweater?
Or do ya need a hug?
How 'bout another? Like your new haircut, yeah
Can I get your number?

Just wanna love you girl
Just wanna love you girl
Just wanna love you girl
Nobody else, oh, but you
