

# Wonder, Velocity, Charlie and Me

## Hollerado

I had a dream we were standing in a grand ovation  
And computers played along in a play about creation  
I was born in a house but I lived in this world  
And for now it's the best place we got  
And for now it's the best home we gotAnd elation about space can locate gravitation  
Levitation is made out of jet fuel and patience  
And words can serve, can create frustration  
Of love by the heard and the hope full of nations  
But the nation is a patient, the creation is station  
The patient location, our creation will change you  
Will change you, we'll change you  
Now becoming grateful  
I can't get the rest, but what should I do?
