## Ashanti

Uh Uh when you hear it knockin' like that  
Ya'll know what this is When my man leave the house  
I know he's coming right back  
I got that good good  
No matter how much he might try to act  
He know just where it's at  
I got that good good (yup) I put it on him right  
I do it every night  
I leave him sittin'  
Mouth open  
Like, 'Whoa!'  
So I don't worry bout (uh) nobody takin my (okay)  
Cause I know just the right thang to do  
I got that good good I never had a problem with the one  
Never been worry about him ever cheating on me  
Cause when I say I got that pop lock and drop it  
Believe me  
If I'm with you It's gonna kill you  
On the days you don't see me  
See The things I possess a lot of women don't (don't)  
And the things I'mma do for my most wont (won't)  
I hear em talking bout it when I'm up on the salon  
Crying cause they man aint come home  
I try to tell em When my man leave the house  
I know he's coming right back  
I got that good good (uh) x2  
No matter how much he might try to act  
He know just where it's at  
I got that good good (uh) x2  
I put it on him right  
I do it every night  
I leave him sittin'  
Mouth open  
Like, "Whoa!?"  
So I don't worry bout (haha) nobody takin my  
Cause I know just right thang to do  
I got that good good Ladies don't believe half what you hear  
Cause its all a waste of time  
If you know you got that good good good

Everything will be just fine  
 So let your man be the man when he in public  
 Even though behind the scenes yall be runnin  
 Let him run with his boys  
 Let him play his little games  
 Let him drive his Cadillac  
 Don't worry hell be back When my man leave the house  
 I know he's coming right back
