Showdown

Boy Kill Boy

So you finally figured that I could work you out
This time I remember we began to doubt
You said the wrong thing
I did the wrong thingSo so, so much of the time
I don't know where you are
I'm starting to believe this won't go very far
This time, mistake is mineI can see them looking over now,
I can hear them talking once too much
Is this all we had to show for the seven years
'Cause we tried and we might survive for the other wish
Is this all we had to show for the seven years
'Cause we tried and we might survive for the other wish
This is my showdownMaybe there's some other fella that you never know
Maybe he's some other one who'll never let you go
I said the wrong thing
I did the wrong thing
Like a fool I never listened I just put you down
Such a shame some other strangers gonna get you now
This time mistake is mineI can see them looking over now,
I can hear them talking once too much
Is this all we had to show for the seven years
'Cause we tried and we might survive for the other wishes
Is this all we had to show for the seven years
'Cause we tried and we might survive for the other wishes
This is my showdownI can see them looking over now,
I can hear them talking once too much
Is this all we had to show for the seven years
'Cause we tried and we might survive for the other wishes
Is this all we had to show for the seven years
'Cause we tried and we might survive for the other wishes
This is my showdown
This is my showdown
