

# Fellow Travelers

**Bobby Bare**

We all are fellow travelers  
Sailing across the universe  
Living aboard the good ship earth  
We all are fellow travelers My heart keeps hoping that someday  
Some way we'll rise above  
Look from the moon at the world below  
And somehow know, with love That we are fellow travelers  
Sailing across the universe  
Living aboard the good ship earth  
We are all fellow travelers And if we must journey together  
Forever it's plain to see  
How we'll depend on each other  
Through all eternity We are all fellow travelers  
Sailing across the universe  
Living aboard the good ship earth  
We all are fellow travelers Children singing:  
We are all fellow travelers  
Sailing across the universe  
Living aboard the good ship earth  
We are all fellow travelers
