

More Of The Same

Sepultura

The speech doesn't reach
The killing doesn't fix
No one is free from the fate
That a few men force us to take
Over-paid and over-weight
A population not one creates
Ill heart that can't love no more
The whole state closing down its doors
All lost, we are all lost
Our path is filled with no end
What will become?
It's just more of the same
You're just a part of the game
We lost our hope in you
False words deceive and lie
Bleeding pages from the paper
Can't wash your hands

It's just more of the same
You're just a part of the game
We lost our trust/hope in you
You cowards, backstabbers, no trust in you
The words are clear for those who care
Never thought it could mean so much
For those who care
You're the ones who created all the fear
You're the ones who deny we're all here
I think it's time to open our eyes
Our minds were closed for most of our lives
Always seemed so real
Controlling what we feel
You never thought it could happen this way
Exercise our right to make it right
It's just more of the same
You're just a part of the game
