Stop

Great Northern

I don't remember
Remember your face
Stuck of the moments
Tied to my waist
If i could remember
Remember your name
Would you notice
Nothings the same
I don't remember
Remember you name
Please now forgive me

I'm not the one
They tried to destroy you
My only son
And i heard your voice
I heard you leave
They tried to destroy you
They cut off your feet
And i hope you notice
That I'm not the one
And i hope you notice
That I'm not the one
