

# Stop

## Great Northern

I don't remember  
Remember your face  
Stuck of the moments  
Tied to my waist  
If i could remember  
Remember your name  
Would you notice  
Nothings the same  
I don't remember  
Remember you name  
Please now forgive me

I'm not the one  
They tried to destroy you  
My only son  
And i heard your voice  
I heard you leave  
They tried to destroy you  
They cut off your feet  
And i hope you notice  
That I'm not the one  
And i hope you notice  
That I'm not the one
