Keep me away

ufesas

I'm waiting for the perfect time
When I can sneak out of my window
And baby, I am counting every second boy
Until I'm next to you
They just don't understand, things you do to me
They'll never realize how you set my spirits free
It's like trying to keep the rain from falling
I can't keep my heart from calling
There's nothing in this world that they can do
To keep me away from you
And even if it takes forever, I know we will be together
There's nothing in this world that they can do
To keep my away from you
When we're doing it together, eyes wide open
Just the beating of our hearts, no words are spoken
No one in the world can thrill me like you do
You touch a place inside me that no one else can see
They just don't realize how you set my spirit free
It's like trying to keep the rain from falling
I can't keep my heart from calling
There's nothing in this world that they can do
To keep me away from you
And even if it takes forever, I know we will be together
There's nothing in this world that they can do
To keep my away from you

Hold me in you arms and my troubles melt away
I want to be with you every hour of every day
No, they could never know the love you bring my life
Take me away from here and baby we can fly
They just don't understand, things you do to me
They'll never realize how you set my spirits free
It's like trying to keep the rain from falling
I can't keep my heart from calling
There's nothing in this world that they can do
To keep me away from you
And even if it takes forever, I know we will be together
There's nothing in this world that they can do
To keep my away from you

No, they can't keep my away from you
No, they can't keep my away from you
No, they can't keep my away from you
There's nothing in the world they can do
No, they can't keep my away from you
No, they can't keep my away from you
No, they can't keep my away from you
There's nothing in the world they can do
They can't keep my away from you
They can't keep my away from you
They can't keep my away from you
There's nothing in the world they can do
