

Summertime

Roberta Flack

Summertime when will you come?

I wanna put my light things on
I wanna put my winter life away
Summertime I need a sunny day

I want those peaches on the table

Want the watermelon red

And the warm sun creeping through the window
To ease the outer pain

I want the sand out there to lie on

And the sea out there to swim

So my heart can take a holiday
From breaking over here

Summertime when will you come?

I wanna put my light things on
Wanna put my winter life away
Summertime I need a sunny day

And I wanna it dry forever
Wanna roll those windows down
Get the breeze back on my body
Get my feet back on the ground

I want the sand out there to lie on

And the sea out there to swim

So my heart can take a holiday
From breaking over here

Summertime when will you come?

I wanna put my light things on
I wanna put my winter life away
Summertime I need a sunny day
