

Pay Any Price

Transplants

Advisory - the following lyrics contain explicit language:

Go, Transplants won't forget it
Past debit is will to test it
Beat down, won't regret it
Only when I can, I can accept it And I speak for the one's who've been kicked hard
'Cause I know what's it's like to be discard and uh
Pushed down and beaten hard and when the times are rough
I'm gonna go step hard Pay any price, pay any verdict
Transplants gonna take it on, that is for certain See, see the devil smile, feed the devils child
Pray to Jesus but you've laid it down for a low, low while
Trouble, trouble ways, in a constant maze
It's killafornia, so that's why I'm in a constant haze Some are born to ride, I seem to wonder why
These sons of bitches still alive and all my home boys die
Can some change the past, I can take it back
Well, I'd like to live what chance to die I gotta make it crack Pay any price, pay any verdict
Transplants gonna take it on, that is for certain You, you might lose you might win, you, you might finish or just
begin
She, she's stretching the back so bend that bitch is lying again
Intellectual vindication, low minded sophistication
Imparity is my equation, you're gonna get my evaluation Pay any price, pay any verdict
Transplants gonna take it on, that is for certain
