Ordinary Day

Ginny Owens

I've lived a lot of life, seen so many things
And I like to think, nothing surprises me
So I try to take it all in stride
No matter what tomorrow bringsBut Your plans for me aren't predictable
And I find Your dreams so incredible
Never commonplace and in so many ways
Always wild and wonderfulOh, You keep me guessing, holding on tight
For the ride of my life with You, all I can say
There's no such thing as an ordinary day
Since You write the scriptI must confess, I don't always know
What will happen next, takes my breath away
Takes a lot of faith, 'cause I don't know what to expect
Every time a new adventure unfolds
I realize that I'm not the one in control
