

# Factor 41

## Sleeper

Two ferries collide and you'll be the one  
Standing on the dock reading papers in the sun  
The ice age arrives you'll keep me warm  
Falling at your feet with no feelings of my own  
What do I do with you lately  
What can I do with you latelyTwo robbers arrive big guys with guns  
You'll be the one looking backwards as we run  
Crusaders come by fat guys who sing  
You'll be the one not believing anythingWhat do I do for you lately  
What can I do for youI'm not afraid of you you're very nice in fact  
Now give me all your cigarettes  
These little love attacks  
Are making me feel queasy  
Can't get my heart rate downTwo missionaries come with conversion kits  
You'll be the one sewing cotton through their lips  
We wear out the sun you'll be the one  
Lying on the roof wearing factor 41I'm not afraid of you you're very nice  
In fact you've got it all you're very tall  
I'm totally impressed can't get my heart rate downI'm not afraid of you you're very nice  
In fact you've got it all but I'm bored  
Of being sycophantic  
So get your knickers down
