

# Good Shit

## Cornershop

Im feeling good behind the wheel  
I know it wont be too long  
Two foots racing and the man made blues  
I feel the magic of the man and the ghostChecking out the animal heads in the animal kingdom  
Taking acts on through the turbulent sea  
Its the truth, its the truth, make it be treeTo the chorus now, itll always be tough  
A beach Manhattan from the middle of the heartI want each and all to switch your tiny mind on  
I want each and all switch on your tiny mind  
I want each and all to switch your tiny mind on  
I want each and all switch on your tiny mind'Cause good shit's all around good people  
Dont let it get you down, good people  
Good shit's all around, its all about, it's all aroundGood shit's all around good people  
Dont let it get you down, good people  
Good shit's all around, its all aboutGood people now, good shit, Im on fire  
Directing traffic on the disco floorWell, one by one, we're gonna take you lovers on and  
One by one, we're gonna take you lovers on  
Eastern claps on the one and the third, and Im thinking  
Its a mighty God, we serveGood shit, Im on fireLets been waiting, I dont give up on a good thing  
Heavy metal from the back of a stage  
Walk into interstate with the worst attorney that helped me  
Making old your mothers dayTo the chorus now, itll always be tough  
A beach Manhattan from the middle of the heartI want you each and all to switch your tiny mind on  
I want you each and all switch on your tiny mind  
I want you each and all to switch your tiny mind on  
I want you each and all switch on your tiny mind'Cause good shit's all around good people  
Dont let it get you down, good people  
Good shit's all around, its all about, it's all aroundGood shit's all around good people  
Dont let it get you down, good people  
Good shit's all around, its all aboutGood people now, good shit, Im on fireAnd its the triple route, its the truth,  
its the truth  
And its the triple route, its the truth, its the truth  
And its the triple route, its the truth, its the truth  
Its the truth, its the truthTruth  
Truth  
Truth  
...
