Cradle Song

Tomahawk

For whom there crows
Spies over fields of rice
Of water lotus stream
A plant with dewI will bring for you
Little lovely dream
A little lovely dreamDear eyes good night, in a golden light
The stars around you will bleedFor you I will press, soft caressLittle lovely dreamSweet sweet shut your eyes
The wild fireflies
The wild fireflies dancing
Through the fairy nameStraight from the poppy bowl
It was for you I stole
And just for you I stole
A still little lovely dreamHush demon baby
Your time will soon come
Your sleep will be broken
By temper tantrumHush demon darlin'
Rest while you may
For strife comes a living
And working with the daySleep momma dearest
The tear upon my heartSleep, sleep my darling
Sleep, sleep sleep on
Sleep, sleep my darling
Sleep, sleep, sleep onI have brought for you
A little lovely dream
A little lovely dreamWhen dawn lights the skies
Open my eyes
