

# Short Fat Fannie (Featuring Paul Nelson)

## Johnny Winter

I was slippin and slidin with a long tall Sally  
Peekin' and a hidin', duck back in the alley  
Don't wanna rip it up, don't wanna dance with Annie  
I've got a brand new lover name is Short Fat Fannie  
One day while I was visit'n at HeartBreak Hotel  
Thats where I met Fannie and she sure looked swell  
I told her that I loved her and I'd never leave  
She put her arms around me, gave me fever  
She's my tutti frutti, I love the child so  
She watch me like a hound dog everywhere I go  
Whenever I'm around her I'm on my p's and q's  
She might step on my blue suede shoes  
Well at a honky tonk party just the other night  
Fannie got jealous and she started a fight  
At the club I was dancin with MaryLou  
I had to call Jim Dandy to the rescue  
Short Fat Fannie she's my hearts desire  
Short Fat Fannie sets my soul on fire  
On Monday we were married on Blueberry Hill  
Now we're so happy and I love her still  
[Instrumental Interlude]  
She's my tutti frutti, I love the child so  
She watch me like a hound dog everywhere I go  
Whenever I'm around her I'm on my p's and q's  
She might step on my blue suede shoes  
Well at a honky tonk party just the other night  
Fannie got jealous and she started a fight  
At the club I was dancin with MaryLou  
I had to call Jim Dandy to the rescue
