Black Crow

Angus & Julia Stone

Eyes from the tree
Take me down the way
Red riders of the dark
Help me through this mazeDo you know, mister, of this place?
Do you know, mister? No time to wasteWon't you help me be on my way?
Won't you help me be on my way?
So I can set me freeSaw murder in her eyes
The dark of a thousand crows
Cold thriller in disguise
Blue shadows stitched to her toesDo you know, mister, of this place?
Do you know, mister? No time to wasteWon't you help me be on my way?
Won't you help me be on my way?
So I can set me freeThere's propergand for every man
On the paper stand, you know
When will the spinsters face
Let give that twist of grace you know?Do you know, mister, of this place?
Do you know, mister? No time to wasteWon't you help me be on my way?
So won't you help me be on my way?
So I can set me free
