Fuck The Universe

Ryan Adams

Slowly, coming over me
Like fire and ice
Confusion all to the ground
Stone me like you own me
The strangest moving patterns
All flow through this city
Strummin' as she's cumin'
She starts a revolution
But never shows up
So holy, give me coma
Alkaline and mainframes
Into a kiss
Cities destroyed and so pretty
The patterns of illusion
Burn through the ground
And I'm a faker, faker
I'm a faker, I'm a faker, I'm a faker
Vampire, coffins to kiss
I'm a faker, I'm a faker
Morning may crawl
Fuck you and fuck the universe
Fuck the universe
Fuck the universe
Fuck the universe
