One Giant Disappointment

Bad Astronaut

Advisory - the following lyrics contain explicit language:

how am i
supposed to feel
i thought we had an agreement
and really not
i believed it'cause always we'd
ignore your demons
the world is full of victims pray
disappointment
an' it betrayed youand you wanted out
yeah you you got outit's a band
it's a bowl
you saw something to live for
i saw more than hands
was plain as from stepsit made me sick
and i still haven't fully
comprehended itthis world cannot be saved
true love will not be found
it's all on stable ground
i've always understood
where you came frombut you were wrong
yeah we were wrongit's almost done
it is the last fuck up
the last song i'll ever write for anyone'cause we wanted out
and you you got out
