Back in Time

Keane

I've got time to kill
I'm not living for the moment anymore
I don't wanna wake upI've got time to kill
I'm not living for the future anymore
I don't wanna wake, I don't wanna wake upShe goes back in time
She goes back in time
She goes back in timeTime, I wait for you
Hibernating, hoping life will start again
Petal in the waterThe days all seem the same
I dream by day, I shut the light out, I escape
I don't wanna wake, I don't wanna wake upShe goes back in time
She goes back in time
She goes back in time
She goes back in time
She goes back in timeSlumping backwards, I forget, I forget
Time has wrapped its drowsy arms around my neck
Don't wanna wake up, don't wanna wake upShe goes back in time
She goes back in time
She goes back in time
She goes back in time
She goes back in time
She goes back in time
She goes back in timeAnd back again
And back again
