

Back in Time

Keane

I've got time to kill
I'm not living for the moment anymore
I don't wanna wake up I've got time to kill
I'm not living for the future anymore
I don't wanna wake, I don't wanna wake up She goes back in time
She goes back in time
She goes back in time Time, I wait for you
Hibernating, hoping life will start again
Petal in the water The days all seem the same
I dream by day, I shut the light out, I escape
I don't wanna wake, I don't wanna wake up She goes back in time
She goes back in time
She goes back in time
She goes back in time
She goes back in time Slumping backwards, I forget, I forget
Time has wrapped its drowsy arms around my neck
Don't wanna wake up, don't wanna wake up She goes back in time
She goes back in time
She goes back in time
She goes back in time
She goes back in time
She goes back in time
She goes back in time And back again
And back again
