Even When

Northern Lite

Who's that girl staring back at me
A hazy you is all I see
You see its a lie that keeps me down
I'm cryin'
I'm cryin' out loud
Even when I cannot feel you near I need you
Like the flame needs the air
Even When I cannot see Your face I need you
You know my fear, can I leave my burden here?
na na na na na... I need you,
na na na na na... I need you,
Thoughts run through my mind
Let's leave this life
Life behind
Yeah
My goal is set on perfection
My body needed correction
Why's the truth so hard to find
Even when I cannot feel you near I need you

Like the flame needs the air
Even When I cannot see Your face I need you
You know my fear, can I leave my burden here
na na na na na... I need you,
na na na na na... I need you,
Yeah
You got to reach the unreachable
Achieve impossible
You got to reach the unreachable
Achieve impossible
Even when I cannot feel you near I need you
Like the flame needs the air
Even When I cannot see Your face I need you
You know my fear, can I leave my burden here
Even when I cannot feel you near I need you
Like the flame needs the air
Even When I cannot see Your face I need you
You know my fear, can I leave my burden here
na na na na na... I need you,

na na na na na... I need you,
