And so you want to sing a break up song  
Well Let me show you how its done  
take one betrayel and a broken heart and then you have a little fun  
But most importantly of all  
this mellow yellow vibe won't do  
You got to let that felling shine on through i'm telling you  
Acoustic is all wrong for a break up song

To take back the word that you said you would keep and to run on around and ask what we see
