

# World's On Fire

## Prodigy

The world's on fire  
The world's on fire  
The world's on fire  
The world's on fire  
The world's on fire  
The world's on fire  
The world's on fire  
The world's on fire  
The world's on fire  
The world's on fire  
The world's on fire  
The world's on fire  
The world's on fire  
The world's on fire  
The world's on fire  
The world's on fire  
The world's on fire  
The world's on fire  
The world's on fire  
And it's too close to the wire  
The world's on fire  
The world's on fire  
The world's on fire  
The world's on fire  
The world's on fire  
The world's on fire  
And it's about to expire  
The world's on fire  
The world's on fire  
The world's on fire  
And it's about to expire  
Too close, you're too close  
Too close, too close to the wire  
Too close, you're too close  
Too close, your world's on fire  
You're so special  
You're so special  
You're so special  
Why aren't you dead?  
Three, two, one, zero

You're too close to the wire  
Too close  
You're too close to the wire  
Too close  
You're too close to the wire
