

# Beat Of The Drum

## Van She

We're running all of our lives to the beat of the drum  
Leave nothing behind

We're running all of our lives to the beat of the drum  
Leave nothing behind

Leave nothing behind And I never wanna leave you high  
I guess it's all I could do  
I needed something new  
I never wanna leave you dry  
But like all things they do  
They end in something new  
I wish there was another way  
You could have gotten me to stay  
But when all is said and done  
I had to leave on the run

We're running all of our lives to the beat of the drum  
Leave nothing behind

We're running all of our lives to the beat of the drum  
Leave nothing behind So it's too late sometimes  
You could've written me a letter  
You could have been so kind  
This day makes me wanna die  
I need another time  
You need another line  
I wish there was another way  
You could have gotten me to stay  
But when all is said and done

I had to leave on the run We're running all of our lives to the beat of the drum  
Leave nothing behind

We're running all of our lives to the beat of the drum  
Leave nothing behind  
I'll run forever  
To get away  
From you forever  
I'll run forever  
To get away  
From you forever  
I'll run  
To the moon  
Stay awhile

And drop my anchor

I'll run forever

To get away

From you forever We're running all of our lives to the beat of the drum

Leave nothing behind

We're running all of our lives to the beat of the drum

Leave nothing behind We're running all of our lives to the beat of the drum

Leave nothing behind

We're running all of our lives to the beat of the drum

Leave nothing behind
