

# King Of The Hill

## Omen

Lost days and distant nights  
Sail out beyond the light  
Set a course straight and true  
You've started something  
Now see it through[Chorus]  
    I am the king of the hill  
    The very top of the heap  
    You wanna play, it's going to cost  
No turning back 'cause you're in to deepTake a stand, make a move  
    Tell the world you've got something to prove  
    Play your cards read 'em and weep  
    Count the cost, cause they don't come cheap[Chorus]  
    I am the king of the hill  
    The very top of the heap  
    You wanna play, it's going to cost  
No turning back 'cause you're in to deepWhat's inside your mind -  
    Find it, feel it  
    You know you can find  
    No one sees it  
    Dedicate your mind  
    Stand up, face it  
    Turning twisting time  
Turn around, see me moveYeahNo way  
    Not todayStand upI am the king  
    Knock me off  
    I am the king  
    Count the costI am the king  
    Knock me off  
    I own this hill  
    Ha ha ha
