Suffocate your love
In a barrel full of doubt
Suffocate your love
North east and south Here I stand
In front of your imagination
Here I stand Hesitate, it's normal
You can't erase mistakes
Hesitate, it's normal
I can't keep awake Here I stand
In front of your imagination
Here I stand Come closer
It's you I want to embrace
Come much closer
It's you I want to debase Here I stand
In front of your imagination
Here I stand
