

# One More Time Around

**Barbra Streisand**

It was over, we had gone our separate ways  
There was no one we could blame  
People told me love will come again  
When you least expect it  
It will lift you up the way it did back then  
Thought it couldn't happen  
And even when I had said next time  
I'll never give my heart  
'Cause the passion never lasts  
Someone told me love is never gone  
Like a light inside you  
Someone's gonna come along and turn it on  
Didn't want to do it  
Go for one more time around  
One more time like the old times  
I still feel so much inside me  
Maybe I'll make it better next time  
It all depends on what I find  
With one more try  
Guess relationships are hard to say the least  
'Cause we make the same mistakes  
But, I've got to try and get it right  
Or I'll only end up like the others  
Who get stranded in the night  
So I'm going to do it  
Go for one more time around  
One more time like the old times  
I still feel so much inside me  
Maybe I'll make it better next time  
It all depends on what I find  
With just one more time around  
One more time like the old times  
I still feel so much inside me  
Maybe I'll make it better next time  
It all depends on what I find  
With one more try
