

Josephine

Stornoway

Where do all my dreams go
Josephine
Through your open window
Josephine
Over your horizon
Josephine
The sun will soon be climbing
Josephine
And its now or never
Josephine
Now or never for me
Do we drown here together
Josephine
Or do we dream forever
Throw me down your hair now
Josephine
There's footsteps on the stair now
Josephine
No need to be afraid now
Josephine
There's nothing in our way now
Josephine
And its now or never
Josephine
Now or never for me
Do we drown here together
Josephine
Or do we dream forever
Throw me down your hair now
Josephine
There's nothing in our way now
Josephine
