

She's Got Me Dancing

Tommy Sparks

Hey, what do you know
About the song and the dancing a wind?
That boy is looking at you
And he says that he knows your kind I see you dancing
But you never ever mark your words
Hey, what do you know?
I think you've gotta do this up again Have you ever felt so lonely
In this cold world so cold?
Have you ever felt so lonely? She's got me dancing, she's got me dancing
She's got me dancing and she's always one step behind
She's got me dancing, she's got me dancing
She's got me dancing and she's always one step behind Hey you, I moved to the side
Just a live a little least of your life
That ex got a bullet aside
And she likes what you did before You see me dancing
But I never ever like to talk
Hey, what do we know?
I think we've done it to ourselves again Have you ever felt so lonely
In this cold world so cold?
Have you ever felt so lonely? She's got me dancing, she's got me dancing
She's got me dancing and she's always one step behind
She's got me dancing, she's got me dancing
She's got me dancing and she's always one step behind Have you ever felt so lonely
In this cold world so cold?
Have you ever felt so lonely? She's got me dancing, she's got me dancing
She's got me dancing and she's always one step behind
She's got me dancing, she's got me dancing
She's got me dancing and she's always one step behind She's got me dancing, she's got me dancing
She's got me dancing and she's always one step behind
She's got me dancing, she's got me dancing
She's got me dancing and she's always one step behind She's got me dancing, she's got me dancing
She's got me dancing and she's always one step behind
She's got me dancing, she's got me dancing
She's got me dancing and she's always one step behind
