

# Screamin'

Macy Gray

Don't hear nothing but bad news lately  
And all my family has gone crazy  
But I guess it don't matter  
Since the work is gonna end  
Gonna make a change at least I'll try to  
Will they notice when I do?  
And if I don't make it  
Will you still be my friend?  
So tell me when I'll see you again  
It'll all be better  
All of my troubles, they go away  
When you're on top of me loving me down  
Making sounds and it's so good  
I am screaming  
Make you wanna throw your hands and holler  
Crying 'cause I miss my father  
When will we get out the mess we're in?  
All I want to do is reach the sky  
Don't want to have to die to do that  
Where on earth is my heaven?

So, baby, tell me when I'll see you again  
It'll all be better  
All of my troubles, they go away  
When you're on top of me loving me down  
Making sounds and it's so good  
I am screaming.  
In each others arms were safe  
Why don't we just stay that way?  
Making love and loving all the time  
All of my troubles, they go away  
When you're on top of me loving me down  
Making sounds and it's so good  
I am screaming  
All of my troubles, they go away  
When you're on top of me loving me down  
Making sounds and it's so good  
I am screaming  
And it's so good

I am screaming
